

Designed for Metal Fabricators

BLEED-THRU[®] Markers

An ink based mark that bleeds through oil *and* water based primers.

One BLEED-THRU Mighty Marker will outlast four paint sticks. Our markers are cost efficient, extremely durable, and are considered the standard of the industry. They have been used on various types of paints and primers without any smearing or distortion.

Write directly on bare metal with the Bleed-Thru marker.

Spray on primer, covering the Bleed-Thru mark.

A bold mark will bleed through the primer.

For oil based primers

IM-13 Stroke widths: **Bullet** (3.2 mm), **Chisel** (4.8mm).
Contains: 13.0ml
Sold in minimum of 12 per box (144 per carton)
