

INK & SPOT REMOVER

Ink & Spot Remover may be the most powerful ink stain remover ever made for the professional dry cleaning industry. We even have the lab tests to prove it.

New **Ink & Spot Remover** marking pen barrel makes it easy and convenient to apply directly to the stain, without messy applicators or concern about dangerous spills. Immediately, **Ink & Spot Removers'** no-nonsense chemicals go to work to disburse the stain - which can then be easily rinsed free with water or solvent.

Ink & Spot Remover is non-ammoniated so it's safe for all natural and synthetic fibers, and its deep lubricating action means fast and thorough breakdown of the stain discoloration. Fact is, **Ink & Spot Remover** will remove many stubborn ink stains your current prespotter just can't handle.

So the next time a customer asks if you're able to remove a tough ink stain, don't guess, say "yes!"... with the professional strength **Ink & Spot Remover**.

- To Remove ball point ink or marking pen ink:
1. Place on spotting board and wet garment with steam.
 2. Apply **Ink & Spot Remover** on stained area (work in to garment using bone)
 3. Flush with steam.

Safe for all natural and synthetic fabrics except acetate (must be used on spotting board)

For Industrial Dry Cleaners Only.
